⭐ Practice - 1

1 **Create a new document in the Word Processor, type any poem of your choice from your English book in it, and save the document with the name 'Poem.odt'.**

💡 SAMPLE ANSWER

Steps:

- Open Apache OpenOffice and double-click **Text Document**. A blank document opens.
- Click **File → Save**, type the name **Poem** and click Save (the file is saved as Poem.odt).
- Type the poem with the keyboard. Press Enter at the end of each line and leave one empty line between stanzas.
- Keep pressing **Ctrl+S** while typing so that your work is not lost.
- When the poem is complete, press **Ctrl+S** once more to save all changes.

⭐ Practice - 2

1 **Create a new document in the Word Processor and write a letter to an old friend asking about their health. Use formatting options like bold, italic and underline, choose a suitable font, and use different font sizes and font colours to present the letter well.**

💡 SAMPLE ANSWER

Steps:

- Open a new Text Document and save it, e.g. as **Letter.odt**.
- Type the letter: your address and date, greeting (Dear Rohan,), body, closing (Your friend, Aman).
- Select all the text and choose an easy-to-read font such as **Times New Roman** or **Arial**.
- Make the greeting **bold**, a line you want to stress italic, and the date underlined.
- Give the greeting a bigger font size (e.g. 14) and the body 12; colour your name in blue with the **Font Color** option.
- Align the address and date to the right (Ctrl+R) and save again with **Ctrl+S**.

Sample body: "I hope you are fine. I heard you were not well last week. How are you feeling now? Please take your medicine on time and rest well. Write back soon."

📝 Exercises · 2. True/False

a **A word processor is a document.**

✔ ANSWER

False

A word processor is a software (computer program) used to make documents. A letter or report made with it is the document.

b **In a word processor, the shortcut Ctrl+S is used to select text.**

✔ ANSWER

False

Ctrl+S saves the file. Ctrl+A selects all the text.

c **The clipboard is a permanent storage area where we keep text/graphics after cutting or copying them.**

✔ ANSWER

False

The clipboard is a temporary storage area. Its contents are lost when something new is copied or the computer is switched off.

d **MS Excel is a word processing tool.**

✔ ANSWER

False

MS Excel is a spreadsheet program. Word processing tools include Notepad, WordPad, MS Word, OpenOffice Writer and Google Docs.

❓ Exercises · 3. Short answer type questions

a **What is a Word Processor?**

✔ ANSWER

A word processor is a software used to **create, edit, format, save and print documents** on a computer.

With it we can write letters, books, reports, articles, newsletters, notes etc.

Examples: Notepad, WordPad, Microsoft Word, OpenOffice Writer, Google Docs.

b **What is a Menu bar? How many menus are there in the menu bar? Name them.**

✔ ANSWER

The Menu bar is the bar below the Title bar that contains **menus**. With these menus we can do different kinds of work in the document.

In OpenOffice Writer it has **nine menus**:

(1) File (2) Edit (3) View (4) Insert (5) Format (6) Table (7) Tools (8) Window (9) Help

c **What is the use of Find & Replace?**

✔ ANSWER

Find & Replace is used to search for a particular word (or phrase) in a document and change it to another word (or phrase).

Example: we can find every "colour" in a long letter and replace all of them with "color" in one go, instead of changing each one by hand.

❓ Exercises · 4. Long answer type question

a **What is alignment? Describe the different types of alignment.**

✔ ANSWER

Alignment means arranging the text in a document with respect to the margins (left and right edges of the page).

There are **four** types of alignment:

- **Left Align (Ctrl+L):** lines start evenly at the left margin; the right side is uneven. Used for most normal writing.
- **Center Align (Ctrl+E):** each line is placed in the middle of the page. Used for headings and titles.
- **Right Align (Ctrl+R):** lines end evenly at the right margin; the left side is uneven. Used for date or address in a letter.
- **Justify Align (Ctrl+J):** text lines up evenly with **both** the left and right margins (spaces between words are adjusted). Used in books and newspapers for a neat look.

Exercises · 5. Exhibition & Evaluation of Portfolio & Project

1 **Digital Poster Making: using the internet, collect information about climate change, diseases or any other social issue, and make a Digital Poster in a word document showing the causes and effects of the problem with images and text (e.g. Global Warming).**

💡 SAMPLE ANSWER

Sample plan – Global Warming poster:

- Search the internet for "causes and effects of global warming" and note 3–4 points of each. Download 2–3 suitable pictures.
- Open a new Text Document; type the title **GLOBAL WARMING** at the top, centre aligned, big font (e.g. 28), bold, red colour.
- Heading **Causes:** burning coal and petrol, cutting trees, smoke from factories, too many vehicles.
- Heading **Effects:** rising temperature, melting glaciers, rising sea level, floods and droughts.
- Add pictures with **Insert → Picture → From File** (e.g. a smoking factory, melting ice).
- At the bottom write a message: "Plant trees, save electricity, use public transport."
- Write the source websites at the end (do not copy without giving credit). Save and print with Ctrl+P.
